Explanation of the Articles in the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the Moon passes the geocentric longitudes of 0° , 90° , 180° , and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the times at which twilight begins in the morning and ends in the evening, *i.e.*, the times when the Sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	$-5' 27''$	$-3' 43''$	$-1' 55''$	$0' 00''$	$+ 2' 1''$	$+ 4' 8''$	$+ 6' 22''$	$+ 8' 44''$	$+ 11' 14''$
2nd Correction for each minute of latitude	$+ 1''.7$	$+ 1''.8$	$+ 1''.9$	$+ 2''.0$	$+ 2''.1$	$+ 2''.2$	$+ 2''.4$	$+ 2''.5$	$+ 2''.6$

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude $43^\circ 20'$... 1st correction — $3' 43''$	2nd correction $+ 1.8 \times 20 = + 0' 36''$
" " $47^\circ 40'$... " " = $+ 4' 8''$	" " $+ 2.2 \times 40 = + 1' 28''$
" " $45^\circ 10'$... " " = $+ 0' 0''$	" " $+ 2.0 \times 10 = + 0' 20''$

THE PLANETS.—The times of rising and setting of the five chief planets are corrected for refraction. The times of culmination, although computed for the meridian of $4h. 46m. W.$ will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45° .

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The column, SUN ON MERIDIAN, gives the time that a watch should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto, noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude $4h. 46m. W.$ It passes the meridian in the morning from April 10 to October 10. It passes the meridian twice on October 10; and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The four last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1882 there will be two eclipses, both of the Sun.

I.—A Total Eclipse of the Sun, May 16, 1882. Invisible in Canada.

II.—An Annular Eclipse of the Sun, November 10, 1882, invisible in Canada.

A Transit of Venus across the Sun's disc, December 6, 1882. Visible in Canada.

For any place on the surface of the Earth, the Radius being ρ , the Geocentric North Latitude l and East Longitude λ , the Greenwich mean time t of first external contact may be computed by the formulae:

December 6, 1h. 55m. 57s. + [2'5471] $\rho \sin l$ - [2'4789] $\rho \cos l \cos (\lambda - 87^\circ 53' 3'')$.

The first internal contact by December 6, 2h. 16m. 18s. + [2'5850] $\rho \sin l$ - [2'4767] $\rho \cos l \cos (\lambda - 85^\circ 55' 9'')$.

The last internal contact by December 6, 7h. 51m. 46s. - [2'8120] $\rho \sin l$ + [2'6454] $\rho \cos l \cos (\lambda - 138^\circ 45' 7'')$.

The last internal contact by December 6, 8h. 12m. 9s. - [2'2897] $\rho \sin l$ + [2'6337] $\rho \cos l \cos (\lambda - 138^\circ 9' 4'')$.

The quantities in brackets are the logarithms of seconds of time.

From the above formulae the local mean times of the different contacts at Fredericton, N. B., Quebec and Toronto are as follows:

	FIRST EXTERNAL CONTACT.	FIRST INTERNAL CONTACT.	LAST INTERNAL CONTACT.	LAST EXTERNAL CONTACT.
	A. M.	A. M.	A. M.	A. M.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ Julius Caesar, having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextilis*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Caesar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found, in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centennial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should not be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained away in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centennial years should, as in Pope Gregory's arrangement, not be bissextile or leap-years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by twelve days, our first of January being equivalent to the 13th old style. In Russia alone, of all Christian countries, is the old style still retained; wherefore it becomes necessary for one writing in that country to any

foreign correspondent, to set down his date thus: ^{12th} 18th September; or, it may be, ^{24th} 24th December, 1871.
^{1st} 1st October ^{9th} 9th January, 1871.

CANADIAN PACIFIC RAILWAY.

This line as projected commences near the eastern end of Lake Nipissing; thence north of Lake Superior, crossing the River Nipigon near its mouth, and passing through Prince Arthur's Landing to Fort William. This section of country, about 650 miles in length, has been surveyed and measured for its entire distance. Leaving Fort William the line extends westwards, crossing Lac des Mille Lacs at Port Savanne, also Lakes Walgreen and Vermilion to the outlet of the Lake of the Woods at Keewatin (Rat Portage), a distance of 294 miles. Of this distance the rails are laid for 171 miles from Thunder Bay. From Keewatin the line continues westward to Selkirk, a distance of 112 miles, upon the whole of which the rails are laid. From Winnipeg westwards the line is now in operation to Portage la Prairie, a distance of 70 miles, and the rails are laid to within a few miles of the western boundary of Manitoba. From the boundary the line is projected to Battleford; thence between Battle River and the North Saskatchewan it crosses the latter north-east of Fort Edmonton; thence by Lake St. Anne and across the Pembina and the McLeod, reaching the Yellow Head Pass, and from that point follows the River Fraser to Tete Jaune Cache; thence it ascends the valley of the Athabaska at the foot of the Rocky Mountains. Ascending this valley and the valley of the Miette, it reaches the Yellow Head Pass, and from that point follows the River Fraser to Tete Jaune Cache; thence it ascends the valley of the Athabaska, and following the western bank of the North Thompson, passes Kamloops and crosses the River Thompson at Savona at the foot of Kamloops Lake. Running thence to Lytton at the junction of the Thompson and Fraser, it crosses the Fraser a few miles below this point, and follows the right bank of that river until it finally reaches the waters of the Pacific at Port Moody, Burrard Inlet.

The total distance from Lake Nipissing to Port Moody may be approximately stated at 2,627 miles.

If liable to more than one rate of postage, and insufficiently prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, are charged 1 cent each, and must be prepaid; otherwise they are sent to the Dead Letter Office.

Post Cards.—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

United Kingdom.—Postage on Letters, 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland.—Postage on Letters, 5 cents per ½ oz. Newspapers (see "Transient Newspapers"). Post Cards, 2 cents each. Prepayment necessary.

Bermuda (via Halifax or New York).—Letters 5 cents per ½ oz. Newspapers 2 cents each. Printed matter 1 cent per 2 oz.

United States.—The rate on Letters to the United States is the same as in Canada, and must be prepaid.

REGISTRATION OF LETTERS.

Persons posting Letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada or British North America	2 cents
On Letters for the United States	5 "
On Letters for the United Kingdom	5 "
On Parcels, Patterns or Samples, in Canada	5 "
On Book Packets and Newspapers to United Kingdom	5 "

Both the postage charge and Registration fee must in all cases be prepaid by stamp.

Registered Letter Stamps have been issued of the denominations of 2, 5 and 8 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage, nor can Postage Stamps be used in payment of Registration fees.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

BOOK POST.

A Book Packet may contain any number of separate books, publications, works of literature or art, maps or prints, photographs, daguerreotypes, when not on glass or in frames containing glass; any quantity of paper, vellum or parchment (to the exclusion of Letters); and the books, maps, papers, &c., may be either written, printed or plain, or any mixture of the three; and may be either British, Colonial or Foreign. No package must exceed 4 lbs., 6 oz., in weight, nor must the size exceed two feet in length, or one foot in width or depth.

Book Packets must be open at both ends or both sides, and must not contain any Letter or sealed inclosure.

The rate on Book Packets between any two places in Canada, and to Newfoundland and the United States, 1 cent per 4 oz., which must be prepaid by Stamps.

The rate to Great Britain is 1 cent per 2 oz.

PARCEL POST.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 6 cents for every 4 oz., or fraction thereof (with 5 cents additional if Registered). No Letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by Stamps.

Parcels cannot be transmitted by Post to any place beyond the limits of the Dominion of Canada, nor can any Parcel be forwarded to British Columbia or Manitoba

(except to the city of Winnipeg) via the United States, which exceeds in weight the limit of 2 lbs. 3 oz.

Eye glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post.

NEWSPAPERS AND PERIODICALS.

Newspapers and periodicals printed and published in Canada, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted by and from the same for transmission by Mail to regular subscribers or news agents in Canada, Great Britain, or the United States, may be posted by the same on prepayment of a Rate of one cent for each pound weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be one cent per four oz., to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

TRANSIENT NEWSPAPERS.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers in Canada. When addressed to any place within the Dominion, Newfoundland, or the United States, they must be prepaid the following rates by Postage Stamp:

If weighing less than 1 oz., half a cent each.
If weighing over one oz., one cent per four oz. or fraction of four oz.

Specimen copies of newspapers and periodicals from the office of publication are to be treated as transient newspapers or periodicals, the rate upon which is one cent per four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada Newspapers posted from the Office of Publication to subscribers in the United Kingdom—if to be sent in the Mails forwarded via New York or Boston, must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz.; but if sent by Canada Packet such papers may pass, as now, on prepayment by the publisher, at the time of posting, of the ordinary domestic rate of one cent per pound. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; inside, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished.

The fee for registering a Copyright is one dollar, an

it runs for twenty-eight years. It may also be renewed for a further term of 14 years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a designation of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession.

POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks in Ontario and Quebec are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from \$1 up to \$300, or more with the permission of the Postmaster-General.

Deposits may be made by married women, and deposits made, or made by women who shall afterwards marry, will be repaid to any such woman.

Deposits for children under 18 years of age may be made—

Firstly—By a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—in the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums

paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster-General's office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

Every depositor must send his book once a year, viz., on the anniversary of his first deposit, for comparison with the books of the Department, and for insertion of interest. The book will be returned to him by first mail. At no other time should a depositor suffer his book to be out of his own possession.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

COLLEGIATE INSTITUTES AND HIGH SCHOOLS.—Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees

are all appointed by the City Council, except where there is only one School in the County. The head master must be a graduate of a British or Colonial University, unless certified and appointed before 18th September, 1865. Besides fees, local rates to the extent of half the government grant must be raised for the master's salary. The grant is payable to those Schools only which attain a certain standard, and is based on the average attendance of pupils in the prescribed studies. High Schools which have an average attendance of 60 male classical

pupils, may be made Collegiate Institutes, and receive \$750 additional grant. An extra grant is provided for masters taking certain meteorological observations and giving scientific knowledge preparatory to military instruction. Pupils attending these schools are prepared for Matriculation in the Universities. There were 94 High Schools and 14 Collegiate Institutes, with 12,910 pupils, in Ontario in 1880. James A. McLennan, M.A., and S. Arthur Marling, M.A., Inspectors of High Schools.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37 Geo. III., c. 13, which enabled the then practi-

tioners of the law to form themselves into a society, and make laws for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurer and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 133, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sit-

MAINTIME COURT OF ONTARIO.—Constituted by Dominion Statute, 40 Vic. cap. 22, is a Superior Court of Judicature. Its jurisdiction is exercised by one Judge for the whole Province, and Substitute Judges for certain localities appointed by the Governor in Council, are invested with such powers and authority as may be conferred on them by their commission. The Maintime Court is a Superior Court of Record, having, with some exceptions mentioned in the Act, the like rights and remedies in all matters, including cases of Contract and Tort, and proceedings *in rem* and *in personam*, arising out of or connected with navigation, shipping, trade or commerce, on any river, lake, canal, or inland water, of which the whole or part is in the Province of Ontario, as any existing Vice-Admiralty Court would have if its process extended to the Province of Ontario. The sittings of the Court and in Chambers are fixed and regulated by the Judge and Substitute Judges at such times as they shall think fit and necessary for the due administration of justice. *Judge for the whole Province*—Hon. Kenneth Mackenzie. *Registrar*—John Bruce. *Marshal*—William Boyd.

Harman. *Reporter in Chancery*—Alexander Grant. *Reporter Court of Appeal, Insolvent and Election Cases*—J. Stuart Tupper. *In Practice and Common Law Chambers*—W. E. HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimant, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Heward.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to \$400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting

of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions, *any, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists, being equivalent to the Courts held by Revising Barristers in England.

INSOLVENT DEBTORS' COURTS.—These Courts, which had reference to traders only, were regulated by the Act known as "the Insolvent Act of 1875," which consolidated and assimilated the practice in Bankruptcy and Insolvency in the several Provinces of the Dominion. The County Judges in the several Counties presided, and official assignees were nominated by the Governor in Council, and were officers of the Court having jurisdiction in the County or District for which they were appointed. And appeals lay to the Court of Appeal of Ontario. This Statute has now been repealed, and the Courts and Assignees are only continuing to wind up pending cases.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart.

DIVISION COURTS, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to \$100, and to \$200 when the amount is ascertained by the signature of the defendant, subject to an appeal to the Court of Appeal; injuries or torts to personal chattels amounting to \$50; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

PLAIN QUESTIONS.

DO YOU KNOW how to write a good business letter, and the essential points to be kept in mind? DO YOU KNOW how to draw a note of hand? DO YOU KNOW what is required to make it legal? DO YOU KNOW the difference between Pre- and Post-Dated Notes? DO YOU KNOW that Merchants have been ruined by not understanding this one simple thing? DO YOU KNOW the force of Compound Interest? If you cannot fully answer these questions in the affirmative, do not enter into business, for without such knowledge, you cannot transact business intelligently and with that well-grounded confidence which every business man should have in the conduct of his affairs. Enter, therefore, on a course of instruction at the

MERCANTILE GRADED COPY BOOKS,

EDITED BY S. CLARE, Esq.

Our Series of Copy Books is admitted to be the most practical and thorough of any before the Public, based on the principles of thorough Grading, they lead the pupil from the less to the more difficult letters, almost imperceptibly. No other book is so carefully arranged as this. We also issue a Series of Ladies' Penmanship, under the care of the same Editor, which have been most favourably received. The following is the list.

Nos. 1, 2, 3, traced \$0 10	No. 6—Longer sentences, with a separate word at beginning and end of line.
Nos. 1, 2, 3, up to 11 0 10	" 7—Sentences filling the line.
The contents of the numbers are as follows :—	
No. 1—Contains the unextended letters, with short words for practice.	
" 2—Contains all the letters of the alphabet, small and capital, with short words for practice, the capital letters being classified.	
" 3—Is a review of 1 and 2, containing also special copy of figures and a few short sentences.	
" 4—Contains short words beginning with capitals, arranged first in order of formation, and then alphabetically; also special copy of figures, and some short sentences.	
" 5—The writing on single lines contains isolated words, phrases, short sentences, and a special copy of figures.	
N. B.—Special effort has been made to have the grading as perfect as possible, the principle observed being to introduce the letters in the order of difficulty and in the word given as a practice upon each new letter, to combine with it such letters only as have been previously learned.	

LADIES' PENMANSHIP.

No. 1—Contains all the letters, both small and capital, with short words for practice on each, a copy of figures, and some short sentences.	No. 4—Smaller angular hand. Sentences filling the line.
" 2—Longer sentences, with a girl's name at beginning and end of line.	" 5—Notes of invitation, &c., printed on left hand of pages, the copy to be written on right hand half.
" 3—Sentences filling the line.	" 6—Passages of prose and poetry, notes of invitation &c., in small, rounder hand, preferred by some teachers.

Educational Maps.

We beg to call the attention of School Trustees, Inspectors, Teachers and others, to our

COMPLETE LIST OF SCHOOL MAPS.

The basis of this List is the Maps prepared under the superintendence of the Educational Department of Ontario, to which have been added some new ones specially prepared for this series. These Maps are corrected according to the latest authorities, are specially adapted for school purposes in the getting up; they are also well mounted on good cloth and varnished. We would ask a comparison with any other series in the market; these are better every way. The following is a list of those in Stock. We hope to prepare a Descriptive Catalogue shortly.

THE MOST
PERFECT SUBSTITUTE
FOR MOTHER'S MILK.

The Highest Amount of Nourishment in the Most Digestible and Convenient Form.

THE ONLY FOOD SPECIALLY PREPARED FOR INFANTS.

"The Adult CANNOT thrive on the Milk provided for the Infant, while the food adapted for Adults MUST be too strong for Babies."

Abounding in FLESH-FORMING and BONE-FORMING substances, this FOOD perfectly fulfils its object, whereas other so-called Foods, such as Corn Flours, being entirely devoid of nourishing properties, induce a rickety and idiotic condition. It is also carefully freed from the ground husks of the wheat, which cause irritation of the bowels, diarrhoea, &c.

CAUTION—A Genuine Food should not contain an excess of sugar, nor be too palpably sweet. Such Foods may be palatable, but they are also pernicious. For this reason so-called Milk Foods, Condensed Milks, &c., are prejudicial to the health of Infants, from the large proportion of beet sugar they contain, rendering them utterly unlike the article they are supposed to represent, viz., MOTHER'S MILK.

Cigars and Cigarettes—Boxes, 3s., 8s., 15s. Pastilles and Powder (for Non-Smoker's use)—Boxes, 2s. 6d., 5s., 10s. For use as Tobacco—Tins, 2s. 6d., 5s., 10s., 15s.

PANCREATIC EMULSION OR MEDICINAL FOOD

RESTORES DIGESTIVE POWER, APPETITE, STRENGTH AND WEIGHT. By supplying the system with the solid form of nourishment required, **PANCREATIC EMULSION** is infinitely more efficacious than fluid fats, such as Cod Liver Oil and Oily Emulsions of any kind—while it has also the advantage of being pleasant to the taste, and not disagreeing with the delicate stomachs of Invalids or Children.

Prescribed by the leading Physicians in the United Kingdom, America, India, and the Colonies.

JEREMIE'S SEDATIVE AND ANTI-SPASMODIC

is held in the highest repute, especially in India, where it was introduced by an experienced officer of the opium department about 50 years ago. It is acknowledged to be a most valuable remedy for

Diminishing Nervous Excitement, Allaying Pain, Procuring Tranquility and Repose,
Without the unpleasant symptoms and objections which attend the employment of other Sedatives.

DR. JACKSON, APOTHECARY GENERAL, CALCUTTA.

"I have constantly used it, and always with the most favourable results."

CIVIL SURGEON WYNNE, PATNA.

"It affords me great pleasure and satisfaction to bear testimony to the efficacy of JEREMIE'S Sedative in Cholera. In no instance have I met with a failure of recovery."

From SIR CHARLES D'OYLEY, BART.

"JEREMIE'S Sedative was frequently administered to me by Dr. KING, and always completely soothed the pain, leaving no bad effects; it has, indeed, saved my life more than once."
